

# Precision Milling Machine DP-02

## Features

- Craftsmanship, unique design
- YM - 2 body is all aluminum alloy
- Precise grinding and flexible operation
- Brushless grinding head, strong power
- The movable arm is flexible and smooth
- Large pitch jaws/electromagnetic suction cups
- Equipped with single and double LED universal light

## Specifications data

### Electrical Parameters

|                |               |                              |        |
|----------------|---------------|------------------------------|--------|
| Input voltage  | 220V~50/60 Hz | Output voltage               | 48V    |
| Rated power    | 200W          | Fuse model                   | T (3A) |
| Grinding power | 60W           | Electromagnetic sucker power | 13W    |

### Mechanical & Functional Parameters

|                    |                                         |                 |                    |
|--------------------|-----------------------------------------|-----------------|--------------------|
| Grinding speed     | 0~50000RPM                              | Grinding torque | 7.8Ncm             |
| Mass adsorption    | 80kgs                                   | Lighting way    | LED Light x1       |
| Control mode       | Manual foot control model               | Motor type      | Brushless DC motor |
| Circuit protection | Overheat/overload/overcurrent           | Weight          | 18.4KGS            |
| Dimension (L×W×H)  | 219x336x520mm                           |                 |                    |
| Variable speed     | Forward/reverse stepless variable speed |                 |                    |

# Precision Milling Machine DP-01

## Features

- Craftsmanship, unique design
- YM - 1 Sheet metal painting process
- Precise grinding and flexible operation
- Brushless grinding head, strong power
- The movable arm is flexible and smooth
- Large pitch jaws/electromagnetic suction cups
- Equipped with single and double LED universal light
